

CROP K 20 supplies chelated, plant available Nitrogen and Potassium to help plants cope with the stress of flowering. Added organic acids, plant stimulants and biology enhance plant growth and fruit development.

UNIQUE FEATURES:

- Added N to increase K uptake
- Plant stimulants and carbohydrates to reduce plant stress
- Biology & organic acids for fungal disease suppression
- Improve flowering, fruit set, fruit development, plant growth & yield
- Organic acid chelation increases nutrient uptake

DRUM SIZE 20L • 200L • 1000L

CROP K 20

CHELATED POTASSIUM AND NITROGEN

APPLICATION TIMING	LITRES/HA
Commencement of flowering	5-10L
Fruit set	5-10L
Fruit development	5-10L
Periods of temperature stress	10-15L

Application Method: Fertigation or foliar spray.

Application Notes:

Do not apply with Copper Fungicide. Dilute with 70-100+L water/HA. If using high volumes of water for foliar sprays use 500-1000mls/100L water.

Ingredients:

N 3%, K 21%, organic acids, complex carbohydrates, plant stimulants, beneficial biology.

Compatibility: Compatible with tech grade fertilisers & a range of pesticides. Always conduct a 'jar test' prior to tank mixing. Caution needs to be taken when mixing with pesticides as potential crop damage could occur. Thoroughly decontaminate tanks and spray equipment before use particularly before applying to sensitive crops. Clean the entire sprayer system, not just the tank.

Storage: Avoid exposure to direct sunlight and store in a cool dry place. Ideally use within six months.

For further information refer to the SDS on our website. Switch Ag's responsibility for the product sold is subject to the terms and conditions of sale, a copy which is available upon request.

NOTE: PRODUCT REQUIRES AGITATION PRIOR TO APPLICATION
