

CROP N 30 supplies chelated, plant available nitrogen for efficient uptake. Organic acids support plant metabolic function and photosynthetic activity for optimum vegetative growth.

UNIQUE FEATURES:

- 30% nitrogen, chelated for rapid uptake through the leaf
- Plant stimulants and organic acids to support the crop through stress periods
- Supports vegetative growth and yield potential
- Zinc added to support nitrogen uptake and utilisation

DRUM SIZE 20L • 200L • 1000L

CROP N30

CHELATED PLANT AVAILABLE NITROGEN

APPLICATION TIMING	LITRES/HA
AS REQUIRED	10-20L

Application Method: Apply via boom, fertigation or aerial. Dilute with 70 - 100 litres of water/Ha.

Ingredients: N 30%, 0.2% Zn, organic acids, carbohydrates.

**NOTE: PRODUCT REQUIRES AGITATION
PRIOR TO APPLICATION
FOR BEST RESULTS: COMBINE WITH
SWITCH AG  @ 3L/HA**

Compatibility: Compatible with tech grade fertilisers & a range of pesticides. Always conduct a 'jar test' prior to tank mixing. Caution needs to be taken when mixing with pesticides as potential crop damage could occur. Thoroughly decontaminate tanks and spray equipment before use particularly before applying to sensitive crops. Clean the entire sprayer system, not just the tank.

Storage: Avoid exposure to direct sunlight and store in a cool dry place. Ideally use within six months.

For further information refer to the SDS on our website. Switch Ag's responsibility for the product sold is subject to the terms and conditions of sale, a copy which is available upon request.
