

A PROVEN RHIZOSPHERE STIMULANT FOR EARLY ROOT & PLANT VIGOUR

UNIQUE FEATURES:

- Rhizosphere stimulation for enhanced germination & root growth
- Greater access to soil applied fertiliser
- Biological strains proven to reduce the effects of common soil & plant fungal diseases
- Highly concentrated and easy to apply
- Improved water use efficiency via enhanced root & mycorrhizal structures
- Increased plant uptake of key nutrients, especially Phosphorus & Zinc
- Contains enzymes that assist in the mineralisation of applied fertilisers making them plant available.

Manufactured by:
Switch Ag Pty Ltd

DRUM SIZE 20L · 200L · 1000L

Advance ENERGIZE SEED TREATMENT

CROP	APPLICATION RATES
CEREALS, LEGUMES & COTTON	6-8L/T SEED. TOTAL VOLUME INCL WATER SHOULD BE JUST ENOUGH TO COAT THE SEED (<10L/T WHEAT SEED). ALLOW SEED TO DRY BEFORE ADDING TO SEED BOX.
SEEDLING PLANTINGS	DRENCH ROOTS IN A DILUTION OF 1:100 (10ml ENERGIZE / L WATER) OR 30L/HA VIA IRRIGATION.

Ingredients:

Macro & trace elements, complex carbohydrates, biostimulants, organic acids, root exudate enzymes.

Compatibility: Compatible with common seed treatment products. Always conduct a 'jar test' when mixing with chemicals prior to application. Thoroughly decontaminate mixing equipment before use.

Storage: Avoid exposure to direct sunlight and store in a cool dry place. Ideally use within six months.

For further information refer to the SDS on our website. Switch Ag's responsibility for the product sold is subject to the terms and conditions of sale, a copy which is available upon request.
